

Rendham Village Hall Chairman's Report to the Parish Council September 2025

The previously reported subsidence claim remains ongoing through the insurance process and has progressed to monitors being fitted to determine any ongoing movement in the walls.

I have received an estimate for the previously mentioned roof repairs which has been presented to RVHMC and we have accepted the quote. We await commencement of the works in line with the contractor's schedule. In support of this we have applied for a grant from the Suffolk Enabling Communities Budget and will be receiving £1000 to help fund the repairs.

Financial matters remain and hall usage consistent with community activities.

Denis Moore

Chairman Rendham Village Hall Management Committee
