

**Rendham Village Hall Chairman's Report to the Parish Council**  
**January 2026**

At this time of reporting several issues remain ongoing.

The subsidence monitoring in December has revealed that there is in fact minor movement in the wall adjacent to the road. A further set of readings are to be taken in February and the results will then be processed for decisions to be made by the consultant for remedial recommendations.

The roofing repairs remain outstanding probably until spring. The contractor assures me that we remain on his schedule. The temporary repairs have proven to be substantial enough to resist the winter weather with no further issues of rainwater ingress.

Community café mornings commence in January and the hall continues to be used for a variety of events and functions. Finances remain stable including the £1000 grant received from East Suffolk Enabling Communities Budget that is ringfenced to be entirely for the aforementioned roof repairs.

Denis Moore

Chairman Rendham Village Hall Management Committee January 2026
