

Rendham Village Hall Chairman's Report AGM 2024.

During this period of reporting the committee has continued to review and ensure the viability of our village hall facility. The building remains in regular use for a variety of community functions, activities and private hirings.

At the start of this reporting period a review of the fire alarm system was undertaken by the Suffolk Fire and Rescue Service and found to be perfectly acceptable for the building with an advisory comment to instal a heat detector in the kitchen. The advice was acted upon and a recommended unit purchased and installed.

RVHMC decided to upgrade all the smaller lighting units in the toilet areas, foyer and store to modern long lasting sealed LED units and these again were purchased and installed. Some redecoration was considered but following the investigations into some cracking in the wall adjacent to the road outside, which has now been determined to be subsidence, decorating is now postponed. The subsidence is now reported to our building insurers and is being progressed.

The monthly community café mornings continue throughout the winter months on the first Tuesday and continue to be a growing success.

Denis Moore

Chairman Rendham Village Hall Management Committee April 2025.
